SIXTY-SEVENTH YEAR

Sign Agreement Packers' Strike Nearing End

By The Canadian Press
 The United Packinghouse Workers of America (CIO) announced early today that agreement had been reached with the Swift Canadian Packing Company on the basis of negotiations to settle the packinghouse workers' strike.

ANNOUNCEMENT of an agreement on procedure between the Canadian packinghouse industry and the United Packinghouse Workers of America (CIO-CGL) was announced today for a general wage increase of 10 cents an hour.

The five-week-old strike in Canada's packinghouse industry moved closer to its conclusion today with the signing of an agreement between Swift Canadian Co. Ltd. and the United Packinghouse Workers of America (CIO-CGL).

The agreement called for a general wage increase of 10 cents an hour.

union and Swift Canadian Company meant that prospects of settlement of the all-Canada packinghouse workers' strike was measurably nearer.

Frederic Howling, Canadian director of the union, said that agreement had been reached between union negotiators and Swift Company negotiators.

The agreement reached with the Swift Company is subject to ratification by the union membership at local units.

The union said that details of the agreement with the Swift Company will not be disclosed until tomorrow afternoon.

Earlier it had been understood that deadlock in negotiations between the union and Swift was holding up a settlement procedure with the other companies.

Meat Said Next On Decontrol List

By DECK JACKSON
 Edmonton Bulletin Ottawa Bureau
 OTTAWA, Oct. 18.—(AP)—Meat is the next item to be added to the list of commodities to be decontrolled under the new price control act.

Price ceilings, fixed on meat, grains, and other commodities, will be removed, according to the free market, prices are expected to increase, leading sharp increase in production costs of beef cattle, poultry, hogs even eggs and hides for leather.

Meat ceilings were scheduled for removal Sept. 15, but the strike of the United Packinghouse Workers delayed government action.

The meat decontrol will be the widest and price situation both remain uncertain due to lack of production.

Meat ceilings brought an "artificial" market situation with meat, bringing prices down slightly.

Replace Murchison As VLA Director

OTTAWA, Oct. 18.—(CP)—A recommendation of the Veterans' Land Administration, Mr. J. R. Murchison, director-general of rehabilitation, replacing Gordon MacMillan as director of the Veterans' Land Act, was announced today by Veterans' Minister Mackenzie.

The shake-up followed a meeting of cabinet, which approved the move. Mr. Murchison's services would be retained, the minister said, in some other capacity because of his very wide knowledge and experience in the field of land operations.

While saying that there had been criticism of certain of Mr. Murchison's actions, Mr. MacMillan was praised for his record as director and said he had established approximately 20,000 veterans' homes.

Mr. MacMillan was praised for his record as director and said he had established approximately 20,000 veterans' homes.

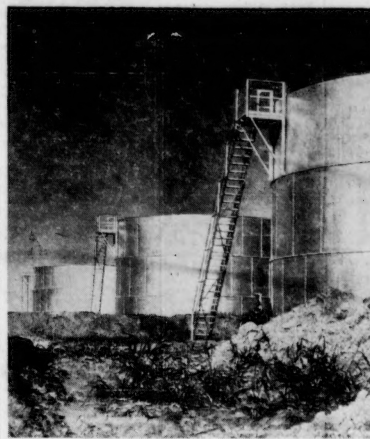

Butter Prices Drop Three Cents

Decrease of six cents a pound in butter prices in Eastern Canada was reflected this morning in Edmonton by a drop of three cents.

The prominent local food manufacturer plant predicted further drops in local prices in view of the sharp decline in the west.

One week ago wholesale butter prices here were 42 cents, but today the quotation was given at 39 cents, though further drops might be expected during the week.

Huge Storage Tanks for Leduc Oil Erected at Nisku

As developments in the Leduc sector of the Edmonton oil fields point more and more to one of the major petroleum fields of the continent, additional facilities are being added to take care of the big flow of oil from the field.

Shown above are the three huge storage tanks at Nisku rail siding 13 miles south of Edmonton on the C.P.R.

Will Wait "Until Western Nations See Reason"

By Larry Allen
 WARSAW, Oct. 18.—(AP)—Eight labor members of the British Parliament say Prime Minister Winston Churchill, when they visited him in Russia recently that he was to resolve political and economic issues with the United States and Britain and impressed them as having no thought of war.

An Associated Press dispatch from Warsaw originally quoted the British as saying Stalin told them he had no thought of making war. No direct quotation was given, but the dispatch added the statement was revised later to say Stalin impressed them as having no thought of war.

Konstant Zilliacus, head of the British Labour delegation, said last night that Stalin added that the United States and Britain did not want to settle differences "we shall wait until they regain their reason."

"Just as the Soviet Union has always stood for improvement of the political and economic relations with all countries, so it now stands for such improvement, beginning with the United States and Great Britain."

"If these countries wish to improve relations with the Soviet Union, they will be welcomed. We shall be prepared to do so, inasmuch as we are interested in what the economic state may be in the Soviet Union."

"Co-operation between countries having different economic systems is possible. That already has been proved by experience."

"If, however, they do not want to improve their relations with the Soviet Union, we shall wait until they regain their reason."

Just as the Soviet Union has always stood for improvement of the political and economic relations with all countries, so it now stands for such improvement, beginning with the United States and Great Britain.

Best Estimate Potential Yield Leduc Oil Area

The FIELD, as yet unmeasured and with 15 producing wells, at Nisku takes up a prime area larger than Turner Valley which was discovered about 30 years ago and had a peak of 10,000 barrels in the year of 1942.

With the recent arrival of a new Devon structure marker in the flow of an independent well two and a half miles to the west of the general area of central Devon, oil circles have buzzed with new speculations on the size and potentiality of the field.

Runs Into Moving Truck

City Boy Is Killed In Street Accident

A boy too young to heed an elder brother's warning not to cross the street in face of oncoming danger, was killed instantly about 5:20 p.m. Friday when he ran into the side of a moving truck at 121st avenue and 97 street.

The DEAD youngster is three-and-a-half-year-old Gerald Saunders, son of Mr. and Mrs. Henry Saunders, 1219 97 street.

According to city police the driver of the truck was also MacDonald, Ben. Accord. He told Constable Herbert Schuchman that he was driving north on 97 street in his truck carrying four tons of dirt out while a carport on the right hand on east side of the street drove west on 97 street.

MacDONALD said he did not have time to apply his brakes but he tried to stop the truck. He actually believed he had missed the child. He said he stopped a little farther on and looked back to see the boy lying on the road. He estimated his speed at the time between 20 and 25 miles per hour.

Police arrived to find the boy dead. He was removed to South ambulance to Park Memorial funeral home. MacDonald told Constable Schuchman that he was driving north on 97 street in his truck carrying four tons of dirt out while a carport on the right hand on east side of the street drove west on 97 street.

Record Enrollment Lloydminster School

LLOYDMINSTER, Oct. 18.—The phenomenal growth of this border town is reflected in the record attendance at the Public School. Already 405 students are registered at the school, and every day sees new additions.

The previous high for attendance at the school was set in 1924 when there were 335 students. In order to cope with the situation the teaching staff of the school has been increased to 11 teachers. The school board has had busy sessions so far this year for in addition to coping with the unexpected number of students it

has made several improvements at the school. Included among the improvements is the connection with the water and sewer distribution system of the town. Although all of the ladies fixtures have not yet been received it is anticipated that they will arrive at an early date. A four inch water pipe has been brought into the building above the concrete floor of the basement which is sufficient to keep four two inch fire hoses going at once, providing ample protection in case of a fire.

Honor Bride
HIGH PRINCE, Oct. 18.—Mrs. Clifford Stager entertained at a shower for Mrs. Crawford Beamish, nee Miss Eva Williford, recently. Mrs. and Mrs. Beamish are making their home at High Prince at present where the groom is engaged in land clearing operations.

C. C. Smith, chief highway inspector and J. E. De Winter, in charge for this district, have been working north and west to the B.C. border this week, inspecting motor vehicles. Before his promotion, Mr. Smith was located at Grande Prairie.

Miss MacCrindell Wed at Wetaskiwin

WETASKIWIN, Oct. 18.—The Church of England, with garlands of autumn blooms, formed a pretty setting for the wedding of Olive Isabelle, younger daughter of Mrs. V. Zhorowsky and the late Mr. MacCrindell, and Leonard John Roberts, only son of Mr. and Mrs. John Roberts, Lacombe.

Mr. Rene Begun, Northwester of the bride gave her in marriage, and the Rev. S. J. Bell officiated.

Miss Austine was the bride's attendant. Robert Webb acted as best-man with Mac French and John Hoffman as ushers.

A reception to 60 guests was held at the home of Mr. and Mrs. Rene Begun with Mrs. Melvin Bailhorn, Mrs. Donald Gleason and Mrs. Howard Bleton, assisting.

million Chamber of Commerce held its weekly luncheon and business meeting in the V.S.A. dining room on Wednesday. One hundred and twenty members and visitors were in attendance. E. M. Stewart was in the chair.

The main topic of discussion was the "Advantages of the Yellowhead over the Crown Nest route for the TransCanada route."

Mayor Harry Atkin of Edmonton was the principal speaker and made a strong case for the northern route.

Pioneer Dies
GRIMSHAW, Oct. 18.—James E. Kennedy, longtime resident of this district, and upon whose property the village of Grimshaw is situated, died suddenly in his sleep recently. A funeral service was held Friday.

Livestock Sale
VERMILION, Oct. 18.—Vermilion Agricultural Society sale of pure bred stock to be held Nov. 3 has 126 entries. The sale will be held at the Vermilion School of Agriculture with W. J. Durno of Calgary officiating.

Married at Wetaskiwin

Mr. and Mrs. Leonard John Roberts, who were married recently at the Wetaskiwin Church of England. The Rev. S. J. Bell officiated. The bride is the former Miss Olive Isabelle MacCrindell, daughter of Mrs. V. Zhorowsky and the late Mr. MacCrindell and the bridegroom is the son of Mr. and Mrs. John Roberts of Lacombe. After a honeymoon at Banff the young couple will live in Wetaskiwin.

Esther Veterans Attend Luncheon

WETASKIWIN, Oct. 18.—Several Esther veterans members attended a luncheon of the Lovers Legion Branch here recently. Canon W. Dore Haasli said grace, and President H. English welcomed the guests including the speaker, Mr. Larson, deputy county representative from Edson, Sask. Members from the Flaxcomb branch and from Mervin were also present.

Mr. Larson spoke on the need of a 100 per cent membership of all veterans in the Legion. He also stressed the point that the Legion takes in sports. Afterward the meeting was turned over for general discussion, and the evening concluded with a social get-together.

Honor Past President

WETASKIWIN, Oct. 18.—The members of the Wetaskiwin Branch of the Immanuel Church met on Tuesday and presented Mrs. E. Barnett, who had been president for 15 years, with a gift of a picture. Mrs. C. T. C. Roper, the new president made the presentation.

Leonard L. Bercuson, of Edmonton, was the guest speaker at the meeting of the Kiwanis Club, Tuesday. William Drayner, newly elected president of the Alberta Weekly Newspapers Association was the guest of honor.

The recent tagday in aid of the Blind, netted \$425. Mrs. William Hansen covered the affair assisted by members of the Eastern Stars, Rebekah's, IOOE Ladies of the Moose, The Royal Purple and the Ladies Auxiliary of the Canadian Legion.

To Buy Projector

GRIMSHAW, Oct. 18.—Grimshaw Junior high school students sponsored a successful dance last Friday night, with proceeds of more than \$50 being raised toward the purchase of a moving picture projector for the school.

T. H. Laughlin, superintendent of Sutton-Maxam Companies returned Wednesday from a business trip to Edmonton and Calgary.

Old Timers' Roundup

VERMILION, Oct. 18.—Vermilion Old Timers' annual round-up dinner and dance will be held in the Elks Hall on Friday, Oct. 24. Dinner will be at 1:30 p.m. The executive is making preparation for 150 plates.

"Add a little to a little"

Yes, you can learn an important lesson from a piggy bank. Simply by adding "a little to a little" regularly, small amounts grow into surprisingly large sums.

Every man worth his salt has ambitions. With some it may be to have an income for retirement when working days are over. Others want to be sure to be able to give their children a University education. Some hope one day to start their own business.

But they all depend on one thing—the money to carry them out.

Thousands of Canadian men and women have discovered the sure way to financial security and success is the Living Protection plan of Investors Syndicate of Canada Limited.

With the Living Protection plan you can "add a little to a little" and so accumulate sums which, together with time and compound interest, will grow into surprisingly large amounts. By setting aside some portion of your income systematically and regularly you can have \$2,500, \$5,000, \$10,000 or more in ten, fifteen or twenty years.

Our representative will gladly explain the Living Protection plan to you or you may send the coupon for complete details.

The Book of Knowledge

(Department: Things To Make And Do)

This and the following articles are taken from the Book of Knowledge and can be clipped for saving in a reference book.

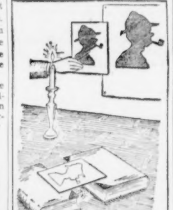

MYSTERIOUS FIGURE ON A SCREEN

Here is a very mystifying trick. Set up a screen on the wall and place a candle on a table. Assume to your friends that you are going to take a perfectly clean piece of glass, rub it with silk, and hold it between the candle and the screen. A magic figure will then appear on the screen. Your friends will be amazed, all the more so because they apparently witnessed all the preparations.

Here is the explanation of the trick, which is based upon a well-known property of electricity. In the first place, much of the preparation has to be done while your friends are absent from the room.

First, lay two books of the same thickness on the table, about four inches apart, as in the picture. Fix an ordinary cork bottle-stopper with a fine file and deposit the powder thus obtained in the space between the two books. Be sure that you cover all the space.

On a rectangular piece of glass draw a profile in glycerine, filling it

When you hold the glass between the candle and the screen, the figure that you have drawn will appear, as if by magic, upon the screen.

Now your friends may be summoned to watch you perform the trick. The room must be in darkness, except for the candle. Show your friends the piece of glass, which in the dim light will appear to be without markings of any sort. Then proceed with the trick.

Lay the glass across the two books, so that the profile will be in the space between them, with the glycerine-marked side toward the cork fillings. Rub the top surface of the glass with a piece of silk. Your friends will see all this and think nothing of it. But this is what will be taking place.

As you rub the glass you will be charging it with electricity. The cork powder under the glass will be attracted to it, just as iron filings are attracted to a magnet. Normally all the cork powder would drop off as soon as the charge on the glass was exhausted. On your prepared glass, however, the particles of cork will stick to the portions of the glass to which the glycerine has been applied.

Therefore, when you hold the glass between the candle and the screen, the figure that you have drawn will appear, as if by magic, upon the screen.

AN AMUSING HAT TRICK

Tell your friends you can give a glass of water on the table, cover it with a hat and drink the water without removing the hat. Here is how it is done.

Get the glass of water on the table, borrow a hat and place it over the glass. Then get under the table and pretend to drink. Next ask somebody to remove the hat to see if the water is still in the glass. As soon as the hat has been lifted up, seize the glass and drink the water.

That is what you promised to do. You drank the water without

removing the hat—somebody else removed it!

Edmonton Philharmonic

On the threshold of its fourth season, the Edmonton Philharmonic Orchestra is poised to bring to music lovers of this city the finest works of the greatest masters. One only has to turn to the programs and the playing of the three previous seasons, to realize what a magnificent contribution this organization has made to the cultural life of the city in a short time. Many orchestras in much larger centres have struggled for a decade and more to reach the state of proficiency attained by the Edmonton Philharmonic in three years.

Not only has the orchestra brought the finest works in the standard concert repertoire to Edmontonians, but it has provided a rare opportunity for outstanding vocal and instrumental soloists, to appear in public with orchestral accompaniment. Without the orchestra, such opportunities would not exist.

The orchestra is fortunate in having as its conductor Mr. Abe Fratkin. A thoroughly schooled, widely experienced musician, he has guided the destinies of the orchestra with wisdom and discretion.

Much practice and many rehearsals are required to give performances of symphonic standard. The players must attend rehearsals regularly, and instrumentalists must play at home. It is to be hoped that in the season about to open, Mr. Fratkin will receive complete and unqualified support from his players. Also, there is a golden opportunity for Edmonton music-lovers to show their appreciation of a great orchestra, by giving it all the help, both financial and moral, that it requires.

We May Learn Something

People in the United States will not have to depend altogether on individual ingenuity in their effort to stop wastage of food. President Truman is enlisting experts to tell the public how this can be done with maximum success, not only in the United States but in Canada as well. Canadians may be able to pick up some useful hints on the subject as they listen, in which they can apply to their own advantage.

For example, officials of the agriculture department say 60,000,000 bushels of bread grains can be saved for export if United States housewives will not be too particular in calling for choice cuts of meat.

If consumers stop being fanciful in that matter, the officials say farmers can cut down the grain ration of cattle in the feed lots by this huge amount, and this would provide a good many millions of extra loaves of bread for people overseas who are not getting as much as they want in winter in any case.

Standards, like their neighbors, are fastidious about what they eat. The natural result of living in a land of plenty. We pay more attention to taste than nutritional value, and demand the best.

But this is not a time to be "choosy." There are too many hungry people in the world for that. And the cost of being finicky puts a heavy strain on the pocket-book. Advice should therefore be welcome as to ways and means to economize food and at the same time keep down the cost of living.

A Record-Maker

Florida's latest hurricane made some records. It was the most destructive in thirty years, not forgetting the one which hit Miami last month. Most of the damage was done by water, not wind, farm crops drowning under floods caused by phenomenal down-pours.

The advance notices said this would be only a second-rate storm, but it turned out to be the worst in three decades, from the stand-point of property damage done.

Having played havoc in the Everglades, the waters headed out to sea, and supposedly had gone for good. Air force storm-fighters followed it, intent on finding out whether a hurricane could be broken up by showering dry ice upon the swirling mass of wind and water. Then the storm headed back to land, struck the coast of northern Florida and Georgia, chasing shore-dwellers and holiday-makers inland, blowing down trees, disrupting power systems, telephone and telegraph communications.

The disgusted chief of police at Brunswick, Georgia, growled "That dry ice bombing of the storm did this." So maybe this counts as another record for the latest hurricane. It may have shown that these disturbances do not react favorably to the dry ice treatment.

The Plague Marches On

Cholera is still raging in Egypt. It is killing around 125 persons per day in Cairo alone. So reports the ministry of health

How widely it has spread has not been stated. Since it has not been checked even in the capital city, the probability is that it has appeared elsewhere and is taking a still heavier toll where preventive means are wanting.

Instead of hurrying defeat at the United Nations, the Arab states would be better employed urging the General Assembly to mobilize medical and scientific men to fight a "holy war" for the extermination of the plague.

If this scourge should sweep the countries about the eastern end of the Mediterranean, Palestine will be a refuge for neither Arab nor Jew. And for the Arab states, it can do to combat it, cholera is likely to spread through that area indefinitely. It respects neither persons nor races nor political boundaries and kills all whom it attacks unless the miracle-working scientist is at hand with his remedies.

While the delegates debate at Lake Success, the plague marches on.

Divine Optimism

Man is made in a fashion that impels him to despair after victory and to find stars in the sky during his darkest hours. Perhaps that is one of the reasons this present age is one of the most depressing ages in modern history.

But is there real justification for this depression? Perhaps the minor circumstances of the times do justify it, in a measure. But in the long view of humanity, or even in the long view of a single human life, is this current despair grounded soundly?

Man is made in the image of his Creator. The Scriptures read the Scriptures through eyes that are imbued with the optimism of divine optimism. It is not irrelevant to say that optimism is one of the qualities of God.

Even in the successive stages of the creation of the world, "God saw that it was good."

And in the revelation of God contained in the New Testament, that hope and optimism are even more evident. The optimism of the song of the angels at Bethlehem and the Magnificat to the final vision of the New Jerusalem, the story of the Bible is a song of hope. The Gospels are touched with stardust. They are the most glowing literature ever written.

Jesus Christ is the greatest, of all optimists. With a vision that the frailty of man could never darken, He saw all that was worst and best in the human heart.

The only valid charter for the Christian Church is found in His farewell, "Lo, I am with you always. And any man who has heard the words 'The Father hath seen Me hath seen the Father,'" can never doubt the optimism of God.

Looking Backward

From The Bulletin Files

1887: 60 Years Ago

It is hoped that the transfer of the police department from the control of Sir John Macdonald to that of Hon. T. M. Wilson is a preliminary to a searching investigation into the return received by the country for the annual expenditure on the force.

When the Yukon makes an editorial attack on Premier Norquay, accused of treachery or incompetence in the handling of public affairs.

1897: 50 Years Ago

Messrs. John Kelly and E. Looby have devised a travel in which anyone taking those marked off a "Travel in the Yukon" has long been replete with difficulties and danger. Men familiar with its harsh ways should do all they can to ease the danger of the march, and help men into the Yukon to grow.

1907: 40 Years Ago

The Edmonton fire brigade have adopted the method used in large cities for letting the public know the fire is in. If an alarm comes in from 28 or 29 bell in the tower will strike twice, then after a pause eight times, thus letting everyone know that the fire is in.

Dr. Ella Sygnet, a sufferer from the post office fire, is located for the time at the home of Mayor Grey.

1937: 10 Years Ago

Premier William Abernethy forecast new debt at the Albert's debt ridden Alberta and house-holders.

A mass meeting said to have been attended by 150,000 people in the city of Edmonton, was held by the Alberta Catholic Women's League.

Albert's Golden Bears football team were "shelved" by the University of Alberta, University of Alberta, University of Alberta, University of Alberta.

Today's Text

Not given to us, no strider, not greedily of food, but to us, not patient, not a breaster, not a conqueror. Timothy 2:12

EMULATING THE HEAVYWEIGHT CHAMPION OF THE WORLD

"Waste Not—Want Not"

By DOROTHY THOMPSON

Weeks of normal American eating and drinking habits are being broken up by the war, and the result is a one thing—being—

Present measures here are multipurpose. If we are interested in preserving the white race, we must re-establish rationing, and price control immediately. For regardless of Europe—though the United States as a whole is estimated to lose 20 per cent more meat and poultry than before the war—thousands of persons here are undernourished because of high prices.

THE MOST HORRIFYING thing to a European visiting America is the sight of a man eating a whole turkey.

It is, however, a condition that few Europeans are aware of. The whole British people are living on ration tickets, and the rationing is a standard of nourishment.

There is an all-over world shortage of man's basic food—bread grain. This is due to drought, crop failure, the loss of land, and the depopulation of thousands of acres of land in Europe because of the war.

There is a world shortage of man's basic food—bread grain. This is due to drought, crop failure, the loss of land, and the depopulation of thousands of acres of land in Europe because of the war.

Sanitation laws contribute to food shortages. Every scrap of food that appears on a table and is not eaten must be thrown away. I do not want to eat a piece of food that has been served me with every restaurant and a pure waste in England if you have potatoes with restaurant meat you can't have a second helping.

leavers from human tables may not be fed to pigs.

Many housewives are wasteful. They throw into the garbage pail leftover meat and poultry. Carcasses that would be the basis of any French pot au feu, poor diamonds worth in which vegetables have been cooked down in the can, and state bread into the sub—and then buy packaged bread crumbs.

A campaign urging that every scrap of food purchased or served should be consumed, that the full garbage can be a crime against nature, would save much more than needless eggs, dairy and also would save money for American families.

If a Polish peasant drops a piece of bread on the floor, he picks it up and kisses it, as a mark of respect for the life of man.

In my own Spartan childhood home, subject of a story, I was told to send back to the kitchen anything that was not a clean plate, and was taken and not eaten it was set aside, and the child had to eat it.

More to teach us that "the eye of the beholder" is greater than the stomach.

That experience has reduced the waste of food in my kitchen. (Copyright by The New York Times and The Associated Press)

By ELMORE PHILPOT

Field Marshal Montgomery said the other day that "the only way to win the war for three reasons—too much Hitler, too much planning, too much discipline."

But when mischievous cad at Sandhurst put Monty's famous words to the test, Monty failed to see the joke. They asked her, killed or captured the crew, took the gold and other booty. Probably every man on the ship was convinced that God had blessed the British.

My point is—we cannot judge the moral standards of one side of his. He was a man of his time, and he was a man of his time. He was a man of his time, and he was a man of his time.

In those days, the British and the Indians on land, and the English, in turn, robbed the Spaniards on the sea. It was a very good lesson—for the English. We who now live in Canada and the United States are the indirect heirs to the loot, and the most successful aggression in history.

I DID PLOT one thing in the book which confirms a conviction of long standing—that the British were not the only ones who were not changed materially because of the Capitalist-Communist struggle in history.

In other words, I believe what is going on in the world today is a continuation of the same pattern. It is the same matter what kind of government you have in power in Moscow, London or Washington.

How much change did we get in British foreign policy in the last few years? It was a very good lesson—for the English. We who now live in Canada and the United States are the indirect heirs to the loot, and the most successful aggression in history.

SOME COUNTRIES we learn nothing from history except that we learn nothing from history. It is the same matter what kind of government you have in power in Moscow, London or Washington.

Sunday Services in Edmonton Churches:

55th Anniversary

Metropolitan United Church to Celebrate

Metropolitan United Church will celebrate its 55th anniversary over the week-end, with special services on Sunday and a congregational social get-together on Monday evening.

The Rev. G. Harrison Villier, B.A., D.D., principal of Alberta College, will be the guest speaker at both services on Sunday, and will bring greetings from the congregational social on Monday evening. Mrs. Betty McCaskill McFarland will be the guest soloist on Sunday, and will also sing at the Monday evening gathering.

On Monday evening there will be a short program, followed by a social hour, with refreshments served by the Women's Association.

The present church at 100 Street and 83rd Avenue, was opened for public worship in March 1943. Since that time a great deal of work has been done toward its completion. Last year, the Memorial Chapel was completed and

Cost of Building Continues to Rise

OTTAWA, Oct. 18.—The cost of house-building in Canada continued to rise during the second quarter of 1947 and at the end of June was an estimated 11 per cent higher than at the beginning of the year. Central Mortgage and Housing Corporation reported in "Housing in Canada," a quarterly summary of major trends in the housing field.

The reports estimate a 15 per cent rise in the wholesale prices of building materials—unprecedented since 1930—and an estimated 7 per cent over all increase in average hourly wage rates paid to building workers during the period.

The production of ten selected building materials during the first half of 1947 indicates a substantial improvement over 1946 levels of output for the same period, the report states. The most impressive gains, 25 per cent and 25 per cent, were recorded in the output of this tube and cast iron pipe, respectively, but records of sales and stocks indicate that the building industry continues to press on available material supplies. Despite the gains in production there is little evidence that stock piles are accumulating.

Employment and earnings in the building industry continued to rise during the second quarter of 1947 and were well above the levels of the corresponding 1946 period. Data obtained from employers having 13 or more employees engaged in industrial, commercial, institutional and residential building showed an average of 3,700 employees during January 1 to July 31, 1947, with 90,134 in July. During the first seven months of 1947 the same group of employers reported an average of 3,400 employees, with 82,301 in July. Weekly earnings of these employees averaged \$36 during the first seven months of 1947, as compared with \$33 during the first half of 1946 and \$34 during the first half of 1947.

REPORTING ON population trends, housing in Canada shows that the high rate of net family formation that developed during the war years is continuing. Net rises were slightly lower during the first half of 1947 than in 1946, with the same period in 1946, and deaths were slightly higher, but births, which have a longer-term effect on net family formation, increased from 74,500 during the first six months of 1946 to 91,300 in the corresponding period of this year.

Reflecting the seasonal upswing of building activity, completions of housing in Canada during the first six months of 1947 were 15,000, compared with 14,000 in the corresponding period of 1946.

Reflecting the seasonal upswing of building activity, completions of housing in Canada during the first six months of 1947 were 15,000, compared with 14,000 in the corresponding period of 1946.

N. H. A. HOME-OF-THE-MONTH

Throughout Canada today the new and one-half story house is gaining wide popularity. An attractive presentation of this type of dwelling was designed by Architect Victor Archer, of St. John's, Nfld., and is being built by a local contractor, Mr. J. K. Kitchin, in Winnipeg. The house type has been selected as the month's N. H. A. and is illustrated as follows.

Under the Integrated Housing Plan for the construction of more than 6,500 units have been approved by the National Housing Act, the Government is actively engaged. Financed under a special application of the National Housing Act, the integrated housing carry a controlled price and, as a result, quality for larger loans, smaller down payments and longer amortization. Financing is carried out directly by approved lending companies and Central Mortgage and Housing Corporation.

This month's house should appeal to those who prefer the modern type of dwelling with separate entrance hall. The rear garden with overhead lighting is an attractive and serviceable feature. The house is built on a planting lot and large roomy windows are provided.

The exterior finish on the ground floor is cedar siding or stone while the upper floor may be stone or light grey stucco, almost any type of exterior finish could be used.

The floor area is approximately 1,200 square feet. The square feet and the usable area of the second floor about 470 square feet, a total of 1,250 square feet for estimating purposes.

The full bathroom, which is not illustrated, contains the heating plant and laundry facilities in addition to a cold storage and space for a play room.

Smoking Canadian by Wallace

"The King" we say in a toast but you ever wondered why we call it a "toast" when drinking to the good health of someone? The reason is that, in early days, pieces of toast were put in the liquor, partly as a delicacy and partly to stave off the effects when a number of toasts were drunk.

The clinking of glasses that we do in a hold-over from the days when people had to pour a little white wine into each other's glasses, before drinking, to be sure poison didn't lurk within the cup.

At almost any public luncheon or dinner in Canada, it is customary to toast the King. This is done immediately after the conclusion of the meal—usually as soon as coffee is poured, as smoking like a cigarette with their jaws and it is not correct to smoke until after the toast to the King has been proposed.

THE TOAST to the King comes first. If there is more than one toast, it is made in this manner. The chairman or toastmaster stands up, calls attention and then announces, "Ladies and gentlemen, we will toast the King. Please pick up your glasses and, as the chairman repeats 'The King' the guests echo his words, clink their glasses, a little and then toast the King. This stand at the toast of the King. This stand at the toast of the King. This stand at the toast of the King.

LESS FORMAL toast which include speeches, are those tendered by distinguished persons, someone celebrating an anniversary, the bride and groom on the occasion of their wedding. Then the toast of the toastmaster, usually a short speech, master launches into a short speech, the health of our guest of honor, Dr. John D., and the guests respond by making a toast to the doctor or flashing a smile in the direction of Dr. D. and drinking to his health.

The person being toasted remarks if a woman proposing a toast should be referred to as toastmaster and if a woman presiding in the chair is called the chairman. No. The toastmaster is a woman.

Point experts said that point, particularly in the paint, would likely remain scarce till the fall of 1948. Ready-mixed color paint was more plentiful and Canada was exporting small quantities.

One of Crew Lost When Tug Sinks

PORT WILLIAM, Oct. 18.—(CPI)—One member of the crew was lost when a tug sank in the harbor here today. The tug was carrying a load of lumber and was being towed by a larger tug. The tug sank in the harbor and the crew was rescued.

Other crew members, under Captain E. B. Fisher, were able to get aboard a row that the tug was towing in dredging operations in the river.

Joseph Parsons of Port Arthur, Ontario, reported the tug was trapped and drowned when the craft struck a bank and sank within a matter of minutes.

Other crew members, under Captain E. B. Fisher, were able to get aboard a row that the tug was towing in dredging operations in the river.

Must Grow More Flax

By NORMAN GOTRA

OTTAWA, Oct. 17.—(CPI)—Canada has a point shortage and the Canadian farmer loses as the key man in getting things back to normal, today this year's flax crop which provides vital linseed oil.

DR. E. S. ARCHIBALD, director of the administrative division of the central experimental farm here, said today this year's flax crop would be "an much as last year. It is not more, but it is not less, and the paint situation, now described as tight, will not be eased before the fall of 1948 as far as linseed oil is concerned.

Shortage of linseed oil has seen it skyrocketed in price. It has risen from 71 cents to \$2.32 and now stands at 15 cents a pound. Paint manufacturers now are working on a 70 per cent quota of linseed oil they would like to get but the government has launched a "grow-more-flax" campaign.

Major cracks or crumbling of foundation walls may call for skilled help and rebuilding of part of the structure. Minor cracks often can be stopped from the inside. There are coatings containing a metallic ingredient for this purpose. A regular section coated on the inside has been found in a tank for several years at the Architectural Samples Corporation, 101 Park Avenue, New York, without showing dampness.

Lonely Llama Wondering Courtin' Worth While

HOLLYWOOD, Oct. 18.—(AP)—Juan, a lonely, lurching llama, who has been mooing all over Griffith Park for Friday mated the hearts of 500 officials.

For days Juan has fixed his big eyes in an envious stare on a pair of zebras strolling happily together in the park. Friday the officials decided upon action and from the San Simeon ranch of William Randolph Hearst they brought Janelle, a female of the species.

But Janelle was unimpressed. She gave Juan a long, intense look—then spit in his eye.

Juan retired to his corner to brood. Janelle studiously neglected the suitor.

"But don't worry," their attendant said. "She really likes him. She's just bluffing like any female, by tomorrow she'll be hitting it off well."

Excuse Me!
For Children too!
INNER CLEANLINESS
COMES FIRST FOR HEALTH!

It is never too early to learn the simple rule that "Inner Cleanliness comes first for health."

And it is a rule which is easy to implant in the young mind, for Inner Cleanliness is just a matter of talking Andrews when needed. Children love bubbling, sparkling Andrews Liver Salt. They need no urging to take it and it is good to know that every glass does its purifying and cleansing work gently yet safely and thoroughly.

Andrews is indeed a most pleasant form of laxative for children as well as adults.

Here's how it does its healthful work:

FIRST... Andrews cleans and refreshes the mouth and tongue.

NEXT... Andrews sweetens sour stomach and corrects excess acidity.

THEN... Andrews works on the liver to check biliousness.

FINALLY... To complete your Inner Cleanliness, Andrews gently cleans the bowels. It sweeps away trouble-making poisons, corrects temporary constipation.

ANDREWS LIVER SALT

INNER CLEANLINESS HELPS KEEP YOU FIT!

THE IDEAL FORM OF LAXATIVE!

NEW LIFE 35-65

ANDREWS LIVER SALT

INNER CLEANLINESS HELPS KEEP YOU FIT!

"Act" by Bracken Is One Year Late

By CHESTER BLOOM

Edmonton, Oct. 18.—(CP)—There's a story that the Ottawa stores today are no longer short of their white, colored and various shades of hats. The occasion for that non-existence item is a surprise performance. Thursday evening by John Bracken, Progressive Conservative opposition leader in all-party debates.

On the occasion of his return to the Carleton Place 100 Club on a performance, Mr. Bracken asked for a pair of shoes.

When the implements were supplied, Mr. Bracken calmly trimmed, shaved and trimmed the cuffs on his shirt before addressing the audience. Then he added: "If the government would pay more attention to production, we wouldn't be troubled with these problems."

It was a good act—but just a year late from two points of view: Last year, shirts were in short supply. This year they are plentiful. And in the interim, Mr. Bracken's indemnity has been raised from \$4,000 a year to \$6,000 not counting his \$10,000 a year as leader of the opposition and \$2,000 a year for motor car expenses.

Strike Ends
LONDON, Oct. 18.—(Reuters)—The 15-day strike of American overseas airlines pilots ended today. The first aircraft to take off from London since the strike grounded the company's planes was to leave here at 3 p.m. (GMT) for New York.

Commence Drive Today

Recruiting drive of the 10th Armored Car Regiment, is under way, according to Lt.-Col. John Proctor, OBE, commanding officer.

The regiment provides a diverse, full training program including mechanical training, driving, shooting, radio and wireless and sports activities for youths from 17 and one-half years and over.

The 10th Armored Car Regiment was formed from a merger of the 19th Alberta Dragoons and Edmonton Fusiliers. The Dragoons regiment was formed in 1905 and was Edmonton's oldest military unit and supplied a squadron of cavalry in World War I.

Headed the regiment are two veteran armored corps officers, Lt.-Col. Proctor and Major "Daisy" Nash, DSO. Senior officers are Maj. R. H. Allsup, commanding Headquarters Squadron, Maj. M. Kerr, commanding "A" Squadron, Major F. N. Hughes, "B" Squadron, Maj. H. S. A. Sullivan, "C" Squadron, and Maj. N. A. White, "D" Squadron.

Under the new regulations issued by National Defence, the reserve forces will have the new higher scale of pay for attendance at unit parades each week, and for time spent at training schools and summer camps.

Headquarters of the regiment is at Connaught Armoury on the South Side, the old home of the 19th Dragoons. The regiment also maintains armored workshops at the former American base on 14th street, known as Littlehead. Parades will be held every Friday at 8 p.m. in the Armoury. The rifle ranges have been renovated in preparation for shooting and

Erskine Church Will Celebrate

Forty years of service to worshippers of the Presbyterian and United Church faith will be commemorated Sunday by the congregation of Erskine United Church, 115 avenue and 94 street in two special services of worship, one in the morning and one in the evening, according to an announcement by the Rev. Hockwell H. Hines, present minister.

The Rev. Angus J. McQueen of Robertson United Church will deliver the morning message. The service is to start at 11 a.m. Guest preacher in the evening will be the Rev. W. T. Young of Greenwood United Church. For this service at 7:30 p.m. the congregations of both churches will worship together.

First meetings of Erskine Presbyterian Church were held under canvas in 1907, with student preachers occupying the pulpits. Since that time the church's influence has grown. It was during the ministry of Rev. J. B. Lavelle, who was pastor between 1923 and 1930, that the church entered the United Church of Canada.

Coldwell Begins Trip Through West

OTTAWA, Oct. 18.—(CP)—M. J. Coldwell, CND leader, left here today for Western Canada to participate in a national drive to increase party membership. He will speak in all western provinces, during the campaign which will close Oct. 15.

New bowling equipment has been installed for the use of all ranks.

Seek New Basis Education Grants

Recommendation that provincial government grants to education should be computed on a per-student basis, instead of the present flat grant principle, was made Friday to the Alberta tax inquiry presented over by J. W. Jurek, deputy minister of municipal affairs in a brief from the Board of Trustees of Edmonton School District, No. 7 presented by H. G. Turner, secretary-treasurer of the board.

It was suggested also that child labour be empowered to charge the full actual cost for non-resident students attending schools, and that the provincial government, in view of its major power in determining and directing of the standard of education in Alberta, should bear a financial responsibility commensurate with its powers.

The school board representative also suggested that provincial government business property should be subject to taxation for municipal and school purposes.

He submitted that the restricted sources of taxation available to city councils cause an excessive taxation on one phase of a community's assets—real estate.

The Alberta provincial executive of the Labor Progressive party submitted a brief requesting the province to absorb the entire cost now borne by municipalities for indigent relief, mobility allowance and old age and blind pensions, and that material increase be made in school grants.

The brief also called for a remission to municipalities of 25 per cent of the gasoline tax and motor vehicle license revenue, and that provincial government property

Guest Speaker

LT. JAMES DUNN

Special Services Strathcona Church

Twenty-two years of religious progress will be marked with special anniversary services at Strathcona Presbyterian Church on Sunday.

The guest preacher at the morning service will be Lt. James Dunn, command chaplain, North West Air Command. Previous to serving overseas as chaplain with the RCAF, Lt. Dunn was minister of St. Andrew's Presbyterian Church, Kamloops, B.C. Special music has been arranged for commercial purpose be taxable by municipalities.

This brief suggested increased royalties on petroleum, natural gas, oil, coal and other natural resources as a means of increasing provincial government revenues.

Bible Institute Opens New Sessions

The Canadian Northwest Bible Institute begins its fall and winter sessions recently in the school rooms of the Edmonton Pentecostal Tabernacle.

Rev. D. N. Dunstan is the principal, and associated with him are Rev. C. A. Maher, dean of theology; Northern Highland, Jennie Munroe, Dorothy Placino, and J. Shieratt. Lila Johnson is secretary.

The Institute provides a comprehensive course for those looking forward to a life of service as missionaries, pastors, evangelists, laymen, youth leaders, Sunday school teachers and Bible teachers.

The Institute is under the direction of the Alberta district of the Pentecostal Assemblies of Canada, ranged for the morning service, with A. O. Wetmore, tenor, the guest soloist.

The evening service will feature the presentation of a religious film entitled, "Who Is My Neighbor?" This is the story of a Samaritan family and their unusual experience in Jerusalem. True to the events in the parable of the Good Samaritan, as Jesus told it, the story searches its climax on the road from Jerusalem to Jericho.

The annual banquet will be held in the church on Wednesday evening, when members and adherents will be guests of the home managers. Greetings will be brought from other churches and a musical program presented.

Puerto Rican horticulturists are experimenting with hormone sprays to save their orange groves from vanilla vine blossoms.

Hospital Costs Reveal Increase

At an average of \$6.55 per adult patient day computed on a nine months' period to the end of September, 1941, an increase in cost of approximately \$1 per patient day over the corresponding period of 1940, was recorded Friday at a regular meeting of the hospital board in the Royal Alexandra Hospital.

Costs for the year to the end of the month were \$584, as against \$549 in the same period of 1940.

Analysis of the financial statement delivered to the board by secretary Maurice Ross showed that the hospital's operating expenses for the nine months period ending September 30, 1941, were \$584,000, an increase over the corresponding period of 1940 of \$35,000.

Earnings for the nine months in 1941 were \$22,707, greater than the previous year and \$5,125 more than the board's estimate for the period.

INCLUDED IN these figures is an estimated government grant of \$66,682 which is an increase over the previous year of \$14,530. Contribution for September was \$3,372, and for the nine month period \$55,815.

A statement of the hospital's financial position for the nine months period ending September 30, 1941, was presented by the secretary, Maurice Ross, to the board of the hospital, which met in regular session on Friday afternoon at 2 p.m. in the hospital board room.

Public Meeting

Dr. S. T. Ludwig, Chairman of the General Assembly of the C.M.A. of the Northwest, will address a public meeting on the 11th inst. of the November at the University of Alberta, 11th and 14th streets, at 8 p.m.

Dr. Ludwig will discuss the work of the C.M.A. and the role of the church in the Northwest.

Dr. Ludwig will also discuss the work of the C.M.A. and the role of the church in the Northwest.

Three Large Oil Leases Granted

Three large oil leases figured in the latest petroleum and natural gas concessions issued by the Department of Lands and Mines for the week ended Oct. 18, according to an announcement Friday from departmental officials.

All three were in the general region of the province with one lease in the northwest, one in the central and one in the south.

The leases were issued by the Department of Lands and Mines, and also included a reversion on 50,000 acres southeast of Hinton and 10,000 acres south of Hinton.

Laura Grace Oyler Is Bride Of Leonard Henry Gray

St. Andrew's Presbyterian church was the scene of the double-wedding ceremony of Miss Laura Grace Oyler, daughter of Mr. and Mrs. Gordon T. Oyler, and Leonard Henry Gray, son of Mr. and Mrs. T. C. Gray, which took place Friday evening, The Rev. J. F. Threlkeld, officiating, and during the signing of the register, Mrs. Ingeborg Threlkeld sang "We are and Through the Years."

The bride, given in marriage by her father, wore a gown of white tulle and tulle sleeves tapering to points over the wrist, and a short train. Her veil was carried to her head and she carried a white mother-of-pearl prayer book with an ermine and white baby christening gown. A double strand of pearls, gift of the bridegroom, was her only jewelry.

The bridesmaids, the Misses Margaret and Vanda Oyler, were bridesmaids and Barbara Oyler was ring-bearer. Billy Gray was ring-bearer. Best men were Harry and Earl Gray, brothers of the bridegroom. Ushers were Leo and Roger Fisher and Jack Adams.

After the ceremony a reception was held for 60 guests where the bride and groom were surrounded by friends and relatives. The bride and groom were surrounded by friends and relatives. The bride and groom were surrounded by friends and relatives.

Later Mr. and Mrs. Gray left on a honeymoon trip to the mountains. The bride is traveling in a custom-made suit with a tan and white color scheme.

To Preside

Miss Lillian MacMillan, president of the Business and Professional Women's Club, who will preside at the buffet dinner marking the club's 25th anniversary at the Macdonald hotel, Monday evening.

Bagpipes Soothe Silk Workers

By JACK SULLIVAN
LONDON, Oct. 18.—(AP)—The sound of bagpipes playing "The Road to the Isles" was heard by the 100 workers at the British silk firm at Lillington, Scotland, who have been burning the midnight oil reeling silk for Princess Elizabeth's wedding gown.

The workers are paid by the number of the firm to soothe the workers. The firm is owned by Lady Dyke but there are no silk goods for her but there are no silk goods for her but there are no silk goods for her.

The silk firm was started in 1932 in an attic at Leith, Scotland. Now it has moved to a new building and the workers are kept busy. The firm is owned by Lady Dyke but there are no silk goods for her but there are no silk goods for her.

times—as often as nine times, in 20 minutes.

Anderson's job is part of a project to study lightning's first-hand so that more effective protective equipment may be devised.

As the electrical storm is reported approaching New York, Anderson goes to a conically-shaped room in the tower and waits. As the storm comes closer, he waits for lightning by sticking his hand out the window. If a stroke is at hand, he shoots from his fingers. The lightning bolts are stored in his pockets, just to make sure

While Anderson sits beside the lightning bolts, self-issuing recording equipment in the tower takes snapshots of a nearby building, pictures of the lightning in profile. The cameras even catch the bulbous, rounded shape of the lightning strikes more than 60 percent of the lightning over the structure.

Anderson says lightning frequently strikes the same place, although most people don't know it.

The conclusion from some of the tests is almost deafening, he says. "There are no leaders," he says. "The lightning strikes the pistol shot."

HAPPY BIRTHDAY

It was the Lady of Fashion's birthday and the Cook planned to have an extra fine dinner. He'd make a ham basket, which was one of the little lady's favorite dishes. You lined a hickory nut shell baking dish with mashed lima bean and filled in the center with chopped frog ham and hominy that had been crisped in black walnut oil. He'd have a salad of scraped apple and powdered beechnut served on a leaf of watercress. Of course, he'd have the usual birthday cake. All the Teenie Weenies knew there would be a cake, but the Cook always made it secretly and then brought it out as a great surprise.

Most of the Teenie Weenies went nutting right after breakfast. The Cook had made sandwiches for them, as they expected to be gone all day. He urged the Teenie Weenie women to go along and they, knowing he wanted to make the surprise cake, followed his advice and climbed into the Teenie Weenie cart to which Skippy, the chipmunk, had been hitched.

When the cart rattled off the Cook put on a bean and while it boiled noisily on the tiny stove he mixed the cake. "Might just as well bake a batch of cookies while I'm at it," he decided.

When the cake had been baked he took it out of the oven and put the cookies in. While the cookies baked he mixed up some maple sugar with whipped black walnut oil for a frosting with which he covered the two-layer cake. Each layer was about the size of a 5-cent piece and when it was frosted he lettered Happy Birthday on top with pink icing. He set the

The TEENIE WEEENIES

BY W.D. DONAHEY

cake on one side of the table and filled the cookie thimble with freshly baked cookies. Then he went down into the cellar to get a grain of hominy.

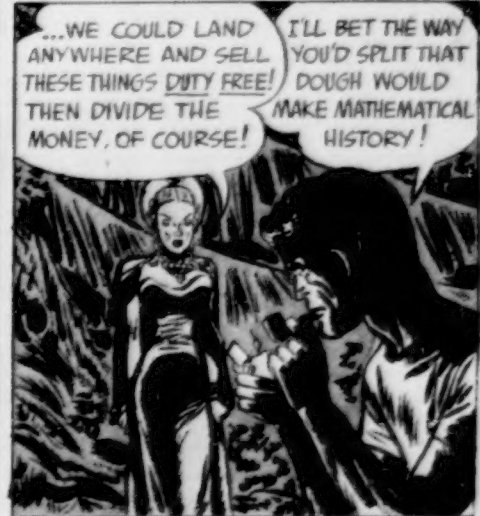

While he was in the cellar the door opened and Ginky slipped into the kitchen. The mouse knew the Cook was alone, for he had seen the rest of the Teenie Weenies going nutting. He also smelled the cake being baked and he had peered through the tiny kitchen window while the Cook worked.

Ginky reached for the cake just as the Cook

came out of the cellar. The Cook grabbed the mouse and there was a terrible fight all over the kitchen. They knocked down the stove pipe, upset the table and broke one of the doors off the corner cupboard, but the Cook finally subdued Ginky with the piece of nail he used for a stove poker. Fortunately the Policeman heard the racket and he ran the mouse out of the village. The cake was ruined but the Cook made another one and all the little folks were duly surprised when he set it before the Lady of Fashion.
